LIMITED PLACES WILL BE OFFERED TO ESVS MEMBERS & TRAINEES FOR A DISCOUNTED FEE OF €1,350

The course is limited to 12 places and these will be offered on a first come first served basis

REGISTER HERE

Participants will gain hands-on experience with one full day of open surgical dissection and reconstruction procedures on cadavers in our state-of-the-art surgical skills laboratory. The simulated operating rooms feature integrated audio-visual facilities to allow for real time and post-procedure feedback from expert faculty.

The second day will comprise of two modules (i) bench-based large and small vessel anastomosis skills, and (ii) Vascular Ultrasound where delegates will have the opportunity to scan peripheral veins, the aorta and the carotid artery on an actor patient and there will be 1-to-1 supervision/direction by Vascular Physiologists.

We will limit the numbers so that there will be a maximum of 2 participants per cadaver, with one-to-one tuition from the expert Faculty.

Pre-course reading will be available.

Suitable for Consultants and Trainees in Vascular Surgery.
